

CODE	DESCRIPTION	TROUBLESHOOTING SOLUTION
E01	Table Leg Failure	Disconnect the leg cable from the cable attached to the desk. Reconnect and make sure the cables are fully connected. If error persists, contact VARIDESK.
E02	Motor Overuse	If the desk is raised and lowered consistently for more than 2 minutes, it will display this error. Stop adjusting and resume after 20 minutes.
E03	Overload	If the desk is at or over its weight capacity of 250 lb (113.4 kg); remove items or reduce weight from the desktop.
E04	Data Error	The control panel may need to be reset. Follow initial setup instructions to reset the control panel.
E05	Button Stuck	If one of the buttons on the control panel is stuck, move the affected button back and forth to release. If the button remains stuck, contact VARIDESK.
E06	Connection Error	Check the connection between the desk and the control panel. Make sure all cables are fully connected.
E07	Height Setting Error	Control panel error while registering desk height. Follow instructions to initialize and then recalibrate the desk.
